**Commissioner for Patents**

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth below or on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures.

The amendment to the specification to comply with the requirements of 37 CFR 1.821 through 1.825 is non-compliant. The amendment submitted on 08/13/2007 amended the substitute specification that was submitted on 01/26/2007. The substitute specification was not accompanied by a statement that it contained no new matter (see MPEP 608.01(q) and 37 CFR 1.125(b)) and therefore was not entered. The subsequent amendment has also not been entered and the specification therefore does not comply with 37 CFR 1.821 through 1.825. It is suggested to applicant to resubmit the substitute specification, complying with the sequence rules. Applicant is directed to MPEP 608.01(q) and 37 CFR 1.125 for compliance with submitting a substitute specification.

Applicant is given ONE MONTH, or THIRTY DAYS, whichever is longer, from the mailing date of this letter within which to comply with the sequence rules, 37 CFR 1.821 - 1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a). In no case may an applicant extend the period for reply beyond the SIX MONTH statutory period. Direct the reply to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the reply.
